

Can be fired directly onto silver

Normally, when Red/Pink/Orange/Gold Violet enamels are fired directly onto silver, it reacts with the silver and turns yellow.
HIROSAWA ENAMWL INSITITUTE have conducted extensive experiments and developed a unique method to create Red/Pink/Orange/Gold Violet enamels that do not discolor.

HIROSAWA

【Transparent for direct silver】

DIRECT ON SILVER

HST-005
¥4,300.
Direct Red

NEW

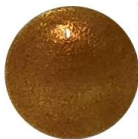

HST-005B
¥5,000.
Direct Red Deep

HST-011
¥4,300.
Direct Pink

NEW
